

Carnegie to feature in National Geographic special

Carnegie to feature in National Geographic's "Breakthrough" series, premiering in the US on Sunday, November 1st, 2015. The series features "cutting edge innovations and advancements that feature the real world of tomorrow...today." Click [here](#) for a sneak preview.

The image is a screenshot of a video player interface. At the top, it says "OVERVIEW" and "FRESH WATER FROM THE OCEAN". Below that, the title "A ZERO-EMISSION SOLUTION" is displayed. In the center, a man in a grey polo shirt with the Carnegie logo is speaking. A text box identifies him as "CETO SYSTEM" and "REG ALLEN". Below the video, there is a subtitle: "Using the waves surrounding island communities and coastal lands could provide a tremendous boost to conservation efforts." The video player has social media icons for Twitter, Facebook, and X in the top right corner. The background of the player is dark with a glowing orange border.
