

InvestorHub Portal to Boost Investor Engagement

Carnegie Clean Energy (ASX: CCE) ("Carnegie" or the "Company") has launched a new [InvestorHub](#) for dedicated investor engagement and information.

It assists shareholders, stakeholders, and prospective investors in learning more about the Company's activities and key projects in what is shaping as a year of growth for Carnegie Clean Energy.

As Carnegie continues to expand its global footprint through projects including the ACHIEVE CETO deployment, MoorPower scale-up and the collaboration with Hewlett Packard Enterprises, it will increase opportunities for investors to stay up to date and communicate with the Company's leadership team.

The Company will regularly upload new content to [the hub](#), including videos, key project news and updates.

Carnegie Clean Energy invites shareholders and interested parties to join InvestorHub as follows:

1. Create an account on our Investor Hub via the [sign up link](#)
2. Follow the prompts to create your investor hub account.

Carnegie Clean Energy encourages investors to post questions/feedback through the Q&A function accompanying each piece of content to engage with the leadership team and gain a better understanding of the company's updates.

Carnegie Clean Energy Chief Executive Officer Jonathan Fievez said of the new investor hub:

"As we continue to grow and commercialise our products, it is vital we keep our investors fully informed. The new, interactive investor hub allows us to connect more directly with shareholders and deliver updates and news directly to shareholders."

To watch Mr Fievez introduce to the new platform, head to our InvestorHub [here](#).

This announcement has been authorised by the Company Secretary and CEO.

About Carnegie Clean Energy

Carnegie Clean Energy (ASX: CCE) is a technology developer delivering ocean energy technologies to make the world more sustainable. Carnegie is the owner and developer of the CETO® and MoorPower® technologies, which capture energy from ocean waves and convert it into electricity. Based in Australia with a global presence, Carnegie's wholly owned international subsidiaries Carnegie Technologies Spain and CETO Wave Energy Ireland are actively engaged in our product development and deployment. Using the latest advances in artificial intelligence and electric machines, Carnegie can optimally control our technologies and generate electricity in the most efficient way possible. The company has a long history in ocean energy with a track record of world leading developments.
